**TOP  
PRODUCERS  
2017**

With the countdown of the 2017 Top Producers rankings now complete, National Mortgage News is pleased to publish the entire list of this year's best loan officers and brokers.

The results of the National Mortgage News 2017 Top Producers survey reflect a surprisingly strong year for mortgage originations. As interest rates plummeted during the summer following the Brexit vote, loan officers found themselves busy with an uptick in refinance volume.

Information submitted about 2016 loan production was used to compile this year's Top Producer Rankings. Loan officers who submitted data for the survey represent the entire spectrum of the origination business, from banks and credit unions to mortgage bankers and mortgage brokerages, and their titles range from loan officer all the way to company president.

The 2017 Top Producers are also featured in a special section of the March print edition of National Mortgage News. Plus, additional upcoming features will provide an inside look into the careers and expertise of this year's Top Producers, offering readers first-hand insights into what it takes to be a leading mortgage industry professional.
